DOCKET FILE COPY ORIGINAL

COMMENTS OF GEORGE RUSSELL & ASSOCIATES, INC.

George Russell & Associates, Inc. ("Petitioner"), by its attorneys and pursuant to Section 1.415 of the Commission's rules, hereby comments on the above-captioned *Notice of Proposed Rule Making* ("NPRM"), released on September 19, 1995. Petitioner filed the *Petition for Rule Making* that initiated this proceeding, and continues to strongly support the proposal to amend Section 73.202(b) of the Commission's rules, the FM Table of Allotments, to add FM Channel 283A to Big Sky, Montana as that community's first local transmission service.

The allotment of Channel 283A to Big Sky will further the public interest by providing the community with its only local transmission service. The channel study submitted with the *Petition for Rule Making*, incorporated by reference herein, demonstrates that Channel 283A can be allotted to Big Sky

consistent with all applicable Commission spacing requirements.^{1/}

In the *NPRM*, the Commission requested that Petitioner provide information regarding the community of Big Sky in order to demonstrate whether it has commercial establishments, social, economic, cultural or religious organizations, municipal services, or governmental units which identify themselves specifically with Big Sky. In response to this request, Petitioner is providing the following additional information:

Big Sky, Montana is located in Gallatin County and has a 1990 U.S. Census population of 407 persons. The Montana State Census Bureau, however, estimates that the population of Big Sky has nearly quadrupled since the 1990 Census. As a resort community, Big Sky's population is much higher during several months of the year. The location of Big Sky Ski & Summer Resort in the community of Big Sky attracts thousands of visitors each week from early November until mid-April. In addition, Big Sky's proximity to Yellowstone National Park affords a substantial population increase in the summer months. That a community is a resort location or is dependent upon tourism for its economic

^{1/} It is requested that Channel 283A be allotted to Big Sky, Montana at the reference coordinates of 45° 16' 33" North Latitude, 111° 25' 5" West Longitude.

base is not a bar to being allotted a local channel. *Amendment of Section 73.202(b) (Essex, New York)*, 4 FCC Rcd 5775 (1989), citing *Amendment of Section 73.202(b) (Greenwood, SC)*, 2 FCC Rcd 3583 (1987); see also, *Amendment of Section 73.202(b) (Trade, TN, and Beech Mountain, NC)*, 6 FCC Rcd 5825 (1991) ("the fact that Beech Mountain is a resort hamlet . . . and is also the location of a ski run does not make it any less a community").

Residents of Big Sky are governed by the county government of Gallatin County. Due to the rapid growth in the Big Sky community, however, the county government forms "special county districts," each governed by a board of trustees, to serve special needs or special interests of a community. Big Sky has more special county districts than any other area in Gallatin County. See "Searching for a Rainbow . . ." *Lone Peak Lookout*, September 38, 1995, attached hereto as Exhibit A. These special districts provide local residents and businesses with governmental representation and services.

In addition to county government and special county districts, taxes are assessed by the Resort Tax Advisory Board, which provides funds to support the Gallatin Canyon Volunteer Fire Department, located in Big Sky. See "Gallatin Canyon VFD

News," *Big Sky Bugle*, September 29, 1995, attached hereto as Exhibit B.

Furthermore, The Big Sky Owners Association, Inc. ("BSOA") was incorporated on September 25, 1976, to govern the fee owners of real property and commercial lessees within the area designated in its by-laws. The BSOA is run by an elected Board of Directors and has the power to provide numerous municipal services, including roads, bridges, lighting, garbage removal, television, security, fire protection, and other municipal and quasi-municipal services and functions. BSOA Members also have the right to vote on all matters addressed at the annual meeting. Homeowners in Big Sky are also represented on numerous condominium and homeowners associations.

The community of Big Sky is served by a wide variety of municipal and commercial organizations. Big Sky has its own United States Post Office and an individual zip code designation (59716). Big Sky also has its individual telephone exchange (995). Big Sky has one elementary school, Ophir Public School, a medical center, the Medical Clinic of Big Sky, and two permanent religious congregations -- Big Sky Christian Fellowship, which holds services at Soldiers Chapel, and a Catholic congregation, which holds weekly masses at the Golden Eagle Lodge. Big Sky is

served by two independent local weekly newspapers, *The Big Sky Bugle* and *The Lone Peak Lookout*, as well as by a local cable television company, Big Sky Community TV. Visitors to the area are also served by *Big Sky Guide*, an advertiser-supported periodical.

The Big Sky Chamber of Commerce is composed of and provides service to the numerous businesses located in Big Sky. A review of the telephone listings for Big Sky indicates that more than 157 service and retail establishments are located either in Big Sky or in two of its subdivisions, Mountain Village and Meadow Village. These businesses include the Big Sky Western Bank, many restaurants and retail outlets, several real estate sales and management companies, lodging facilities, grocery stores, and recreation providers. A copy of the telephone listings for Big Sky is attached hereto as Exhibit C. At least 26 of these businesses identify themselves by name with the community of Big Sky. See Exhibit D, attached hereto.

Residents of Big Sky have also established and support local community civic and cultural organizations, such as the Big Sky Association for the Arts and the Big Sky Ski Education Foundation. The community of Big Sky hosts many annual festivals and events, including the Western Winter Carnival, Oly Days

Spring Carnival, the Hilton Open Kayak Championship, the Big Sky Arts Festival, the Big Sky Country Fair, and the St. Nick's Nordic Festival.

As demonstrated herein, the commercial establishments, social, economic, cultural and religious organizations, municipal services, and governmental units which identify themselves specifically with Big Sky provide sufficient indicia to demonstrate that Big Sky is a geographically identifiable population grouping, and therefore satisfy Commission precedent to qualify as a "community" for allocation purposes. See, e.g., *Amendment of Section 73.202(b) (Vacaville and Middletown, California)*, 6 FCC Rcd 5786 (1991).

In the *NPRM*, the Commission also requested that Petitioner supply additional information regarding the availability of a suitable transmitter site due to Big Sky's location within the Gallatin National Forest. Although surrounded by the Gallatin National Forest, the land comprising the community of Big Sky, including the Big Sky Ski & Summer Resort, is privately owned. Currently, two FM translator stations are authorized to utilize broadcast facilities located on Lone Mountain, which is also the location of Big Sky Ski & Summer Resort's skiing facilities. Petitioner has contacted the landowner and been advised that it

will be permitted to construct transmitting facilities on Lone Mountain for use by the proposed FM station.

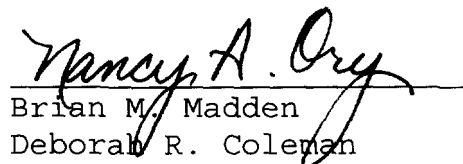

Petitioner, or an entity in which Petitioner is involved, intends to apply for the channel at Big Sky when the allocation is made and, if authorized, intends to build the station promptly.

For the foregoing reasons, Petitioner respectfully urges the Commission to adopt expeditiously a *Report and Order* amending Section 73.202(b) of its rules to add FM Channel 283A to Big Sky, Montana.

Respectfully submitted,

GEORGE RUSSELL & ASSOCIATES, INC.

Big Sky Views

Searching for a Rainbow...

Yesterday the Commissioners of Gallatin and Madison counties hosted a community forum involving a diverse collection of the Big Sky and Gallatin Canyon personalities. The forum participants included community people who have worked with local districts, boards, or other entities and whose views the joint commission deemed valuable for the informal session.

The focus of the forum was clear by mid-morning. The need to work in a collaborative direction rather than a competitive direction is the key to working together. Its is also the key to self determination on the local level.

While the moderator, Dennis Phillippi, brought valuable ideas and concepts to the surface of how community members need to reach agreement and coexist in harmony. The most important message he passed to the forum attendees is that if we don't determine our rules of government, someone else will step in and make those decisions for this community.

Phillippi's message was simple. The community must develop a vision for the future. The vision or future plan for the Big Sky community is critical and must be defined by community leaders who can lead the masses. Phillippi's message carries the burden of decision making from within our community ranks, as opposed to relying upon outside opinions.

His urging to work in a collaborative manner is important because under this umbrella there should be room for all opinions, but the important ingredient is the willingness to participate on the local level. In order for leaders to emerge, collaborative efforts locally must be encouraged and not discouraged. In action by citizens at the local level, by a simple

unwillingness to "get involved", ultimately leads to decisions having to be made by agencies outside our community.

As Big Sky continues to grow and mature, the need for local citizens to get involved in local government becomes crucial. Already the Big Sky area has more special county districts than any other area in Gallatin County. For every special district there is a board of trustees. If this community chooses to continue to form special use districts within the guidelines of either county and state law, the citizens of this community

are going to have to accept the responsibilities of leadership that goes hand and hand with these

EDITORIAL

by Kevin Kelleher

districts.

Special districts are formed because of special needs or special interests of a community. Before this community leaps into the districting policies, it should prepare for the responsibilities that come hand in hand with those districts. Special districts are forms of government, you might argue for a district, while others may resent the idea of more formal government.

The pros and cons of any special district should be thoroughly investigated before it is brought to the people for any vote. Most importantly the need for that district and its impact on the tax base of the area it is proposed to serve should be crystal clear.

Collaborative solutions don't necessarily mean that we need to form special districts, or convert to a mayoral form of government.

It does mean that we need to work collectively within the framework of what we now have in the form of ownership government, covenants, and special districts now in place. Willing and diverse citizen participation may be the rainbow we are searching for.

EXHIBIT B

Gallatin Canyon VFD News

The new Rescue Unit has finally arrived. This new unit is equipped with a 750 gallon per minute pump, the capability of using foam for certain types of fires and the ability to get out fast and into some of the more difficult areas here in Big Sky. It is a Ford Turbo Charged Diesel with four wheel drive for those bad weather situations. It is able to get to just about anywhere and shall carry all our rescue equipment.

We did come in under budget for this vehicle which is always a good thing. The new radio for the vehicle was put in on Tuesday.

Having received the new ALS Ambulance last February and the new Rescue Unit this past week, you can really see your resort taxes at work here at the fire department.

It has been a busy and productive year for the department as well as the community. With this new equipment, the continued training and the dedication of the volunteers, we hope to really make the Big Sky area one of the safest places to live or visit.

If anyone would like, please stop by the fire station and see the new equipment.
